WHAT PRICE VICTORY

Our last two games against West and Waratah have produced a defensive record that is hard to accept.

These poor performances have caused our spectator attendances to fall and consequently gate receipts are lower.

The solution to this is in our own hands with all grades giving a little bit more in effort and application — hopefully getting on a winning streak and enticing our 'lost' supporters back to the game.

Today's opponents South are leading the competition and riding high, however, the 'BLUES' are hell-bent on erasing our first round wipe-out.

Don't forget players awards at 6 p.m. back at North Leagues Club — everyone welcome!
